PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Lead **CASRN:** 7439-92-1
Narrative description of proposed project and the method we will use to measure success: _____

We will replace leaded solder with non-leaded solder in the manufacture of printed circuit boards. This will result in the elimination of the use of 17,000 pounds of lead in our manufacturing process.

1. Our voluntary source reduction goal for Chemical #1 is to reduce the amount of this chemical generated from a baseline amount of 17,000 pounds generated in January, 2007 (month/year) to a reduced amount of 0 pounds generated by December, 2007 (month/year).

2. To accomplish this goal, we will explore the following source reduction options (check all that apply):
☒ Equipment or technology modifications. ☒ Process or procedure modifications.
☐ Reformulation or redesign of products. ☒ Substitution of less toxic raw materials.
☐ Improvements in inventory control. ☐ Improvements in maintenance/housekeeping practices.
☐ Other (explain): _____

3. Our (optional) voluntary recycling or recovery goal for Chemical #1 is to increase the amount of this chemical recycled or recovered from a baseline amount of _____ pounds in _____ (month/year) to an increased quantity of _____ pounds by _____ (month/year).

4. To accomplish this recycling or recovery goal, we will explore the following options (check all that apply).
☐ Direct use/reuse in a process to make a product.
☐ Processing the waste to recover or regenerate a usable product.
☐ Using/reusing waste as a substitute for a commercial product.
☐ Other (explain): _____

Authorizing Official/Title: Vicente Nazario/Plant Manager Date: 8/10/04
Project Contact (if different from Authorizing Official): Diogenes Mercado Phone: 1-787-271-5000
NOTE: use supplemental sheets for additional goals.
